shibamouli is the greatest! I would want him to be a course director, for he completely understands how over the top this class is at an introductory level! PLEASE GET HIM TO BE IN CHARGE SO HE CAN FIX THE IMPLEMENTATION OF THIS CLASS

Your slides were extremely helpful. Going regularly to discussion is what allowed me to understand C++ and Python. Your passion for teaching us at a level that we can understand also really helped. Thanks!

Student 6

Material covered was not relevant to what we were currently doing.

Shibamouli is excellent! He extended and deepen the materials from the lecture so that I could learned something that we should expected to see in higher level classes. What is more, he is very helpful, kind and patient. When I made an appointment with him, asking him to spare some extra time to help me with the final project, he spent one hour to talk to our team. And we all could feel that he was well prepared for the talk. If Shibamouli could speak English better, he would be perfect!!!

I did not go to many discussion sections, but the ones I did go to, the GSI was very helpful and well prepared. He returned all of our style grades and if I posted a question on the comments left on the returned document, he would answer it very quickly and helpfully.
