Office hours were helpful, didn't give many lectures. No complaints.

Rada is a very nice teacher, she explains everything as clear as possible.

Only one suggestion:

For the later half of the course, I think it is necessary to give one more simple assignment so that we can understand the algorithm/material better.

*Shibamouli was really cool and clearly very interested in the subject matter. Very relaxed and provided lots of insight through Piazza. Basically exactly what an EECS GSI should be. 10/10 would love to see him as a GSI of another one of my courses.*
